1. The following is an Examiner's Statement of Reasons for Allowance:

Sakai (i.e., JP 62-214990) teaches that a U.V. absorber can be mixed with the resin employed in a thermal dye transfer protective layer. Sakai does not recognize that unexpected results are obtained when the U.V. absorber is actually reacted with the resin in the protective layer (see Table 1 in applicants' specification).

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably **accompany** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
